# About US

---

Our journey started with feldspar mineral processing business a decade ago and we were the first mineral processing company in India which was equipped with the wet grinding beneficiation technology and that has transformed the whole Indian ceramics industry. With our strong technical background and experience we have achieved the best possible quality standards that have revolutionized the Indian ceramics industry.

Furthermore we have started R&D for Quartz mineral processing and it ended up with the best methods possible to make the best Quality quartz that will help the quartz slab industry to grow further and achieve the highest quality standards. Innovation and forward thinking mindset is at our core and that is the vision why Aero was born. Since our inception, Aero has been committed to growth and innovation. Our journey is one of continuous improvement, driven by a dedication to meeting the growing and changing demands of industry.

# key milestones

---

- 2013 ● Established a feldspar processing plant using the wet-type method for the first time in India.
- 2016 ● Started our own mining operations with crushing units at all mines, implementing sustainable extraction methods.
- 2020 ● Initiated research and development in the quartz mineral business.
- 2023 ● Established a first-of-its-kind quartz processing plant with an annual capacity of 120,000 metric tons.
- 2025 ● Began exporting our premium-grade quartz grits to artificial quartz stone industries across several countries.

# Strategic cooperation

---

# Our current offerings

---

We offer a wide range of quartz grits and powder suitable for artificial quartz stone industries, PV solar glass, and various other applications.

## Premium Quartz Grits / Sand – Available Sizes

---

0.1 mm to 0.2 mm

0.2 mm to 0.4 mm

0.1 mm to 0.4 mm

0.3 mm to 0.7 mm

0.6 mm to 1.2 mm

## Premium Quartz Powder

---

150 Mesh

325 Mesh

## Key benefits of our products

---

- 1) High whiteness
- 2) Minimal impurities and low contamination levels
- 3) Exceptional chemical purity with more than 99% SiO<sub>2</sub>
- 4) Excellent consistency in quality with a single, uniform shade, ensuring the ability to supply large volumes without any shade variation.

# International exhibitions & global outreach

---

- COVERINGS, USA
- MARMOMAC, ITALY
- XIAMEN STONE FAIR, CHINA
- STONA, BENGALURU, INDIA
- STONE MART, JAIPUR, INDIA
