

Our company

Cemar produces and produces the highest quality natural stone flooring, natural mining. It produces and exports stone cladding, natural stone exterior applications, and handcrafted natural stone products in Turkey.

Our travertine quarry, factory, warehouse, logistics base and office are all in one place. We are fully committed to providing the highest quality products to meet the highest expectations of our international customers. This commitment to excellence is made possible by our access to vast natural resources and a 100% customer-focused organization.

Travertine Quarry

Our quarry is located in Kula district of Turkey, approximately 130 km away from the port. of Izmir. The 270,000,000 m³ reserve, which covers an area of 900,000 m² and goes to a depth of 300 meters, is probably the largest travertine quarry in the world. All three main colors of the world travertine market are extracted from the same quarry: Ivory (Extra Light) - Classic Light - Noce

All are available in grain or cross-cut. With 150 employees producing 24 hours a day, 7 days a week, CEMAR can guarantee the safe delivery of any quantity with an annual production of 110,000 m³ of raw materials. We also have our own fleet of 10 trucks to connect production to Izmir Port.
