Stone made art. Design transformed into luxury.

At **Miapetra**, we do not mass produce. We sculpt **each piece as if it were a unique work of art**, designed for the most sophisticated projects and spaces.

Each washbasin and shower tray is a masterpiece in natural stone, designed for those who appreciate the exceptional: **exclusive design, unique character and timeless beauty**.

Exclusive, custom-made design

Each creation is unrepeatable. The veinage, textures and colours of natural stone give each piece a **unique identity**. Our customers do not buy a product; they **invest in a designer piece** that defines their space and elevates their project.

Delicate craftsmanship and modern precision

At Miapetra, quarrying tradition meets cutting-edge design. The result: **impeccable, functional finishes**, crafted with the meticulousness and respect that stone demands. Each piece is made individually, as in a haute couture workshop.

Authentic sustainability

We work with **100% natural stone from authorised local quarries**, reducing our environmental footprint and optimising resources. Our processes respect the origin of each material and ensure that today's luxury is compatible with tomorrow's.

Luxury that endures

A Miapetra piece **is more than just a functional item**: it is a style statement, an investment in design and durability. Time does not wear it down, it enhances it.

Our commitment

To accompany architects, interior designers and clients in the creation of **unique spaces**, making pieces that emanate **quality, sustainability and distinction**.
