

ITA.MACH. Srl is a company with a **strong and reliable background** in the stone market and **know-how 100% Italian** engaged in the production of sintered and electroplated beads and diamond wires and in the in the production of cutting machines monowire and multiwire.

PRODUCT RANGE TOOLS DIVISION

- Sintered and electroplated **DIAMOND WIRES, PLASTIC, RUBBER, SPRING** assembly;
- Sintered and electroplated **DIAMOND BEADS**;
- Wires and beads for **DRY CUTTING**;
- **DIAMOND WIRES** for **MULTIWIRE MACHINE**.

PRODUCT RANGE MACHINE DIVISION

- **MONOWIRE** machines gantry on rails or stationary for cutting slabs and squaring blocks;
- **COMPACT MULTIWIRE** machines: **EPICA 65, EXPERT 35, EASY 11; EASY 5**;
- **COMPACT MULTIWIRE** machines for the cut of slabs thicknesses: **EASY 11 PLUS**
(up to 11 slabs at 8 cm in one cut).

The new generation includes multiwire machines with 5, 11, 35 and 65 diamond wires.

A system for the positioning of removable spacers for the setting of the cut thickness. It allows to choose the desired thickness and set it through an easy action

Multiwire system – slabs thicknesses, for small and medium size production, flexibility in cutting slabs and thickness.
