

Founded in 1985, we are a family-owned company, based in Marco de Canaveses, with over 40 years of experience in the market. We are specialized in the extraction and processing of natural stone, as well as in the production of concrete, aggregates and the sale of granite, limestone, marble, natural stone and other similar products. We have a technical team specialized in the selection of products and raw materials. We have 2 quarries for extraction and we control the entire production process from extraction, transformation and final product. Our production process is based on state-of-the-art technologies and an efficient energy system, without ever neglecting the protection of the environment. Integrity, Responsibility and Sustainability are some of the values that govern us.
