

About us

Shanghai Zhongzhu Industrial Co., Ltd. was established in 2012 and is a high-tech enterprise that integrates the research and development, manufacturing, sales, and technical services of stone mining machinery, stone processing machinery, and other equipment. The company is based in Shanghai and faces the world; Committed to building "Zhongzhu" and "ZHONGZHU" into world-class brands.

The company insists that technological research and development is the decisive factor for enterprise development, constantly innovating and possessing over 30 national patents. The enterprise and its leaders have successively won various honors such as high-tech enterprise, technology-based small and medium-sized enterprise, leading enterprise in stone machinery and equipment selected by the Shanghai Stone Association, and person who has made technological contributions to the development of the stone industry in the past 20 years from 2003 to 2025.

The company's leading product, the marble mining chain arm saw, is independently developed and produced; Marketed nationwide and exported in bulk to over 30 countries, gaining high recognition from users. This type of product has obtained EU CE certification, is efficient and energy-saving, and uses digitalization to help users better practice the development concept of "green mining".
