Founded by Geraldo Fiorio in 1986, the Marcel Group stands out in the extraction, processing and commercialization of ornamental stones. We have in our essence the pioneering instinct, which drives the constant search for new areas and new materials. Which leads us to a trajectory full of growth in these almost 40 years of existence.

"We have 80% of our revenue, exclusively, in the export market"

With the focus on the foreign market, our priority is the volume of materials with high quality, but we do not give up on offering Brazilian customers the most special natural rocks that come from our diversified nature. Today we operate in the intercontinental markets: Brazil, China, USA, Italy and Latin America.
