Our history spans nearly four decades. Since our foundation in 1981, we have made great strides, expanded internationally in 80 countries and became pioneers in the global marble and natural stone industry.

Today, we are a vertically integrated group of companies, with a fully developed organizational structure, employing a total of more than 550 employees. The structure includes Sales, Marketing, IT, HR, Logistics, Procurement/Sourcing, Production and Financial departments, active in quarrying, processing, and trading marble all over the world with a dynamic presence in more than 80 countries.

At the same time, we enjoy exclusive distribution agreements with a great selection of quarries. .

Our Culture

F Culture creates an environment where employees are the protagonists, prioritizing each one of them and focusing on their well-being as well as their continuous development. F is a guide to personal and professional success, which has a catalytic effect on human behavior, shapes all employees' attitudes in the light of corporate values and ensures that these values are essentially embedded in “that’s how we do things around here”.
